

Smile with African Style

There are 54 countries in Africa! As Macy and her class showed us, each country is unique, with its own customs, celebrations, languages—STYLES—and much more! Traditional outfits, like the ones Macy and her classmates wore to school, are worn during celebrations and other important events. In some countries the patterns and designs on the fabric and outfits can have special meanings.

Listen to **Smile With African Style** again. See if you can draw a line from the name of each classmate to the country their outfit celebrates!

Do you remember the special names Macy and her classmates used to describe each of their outfits?
